ATV XSTREAM® POWERLID® APPLICATIONS

FILTERS

Two Steps Designed to Increase Horsepower & Torque!

1. ATV XSTREAM® POWERLID®

The ATV XStream Powerlid integrates a K&N High-Flow Air Filter with an airbox lid that is designed to replace potentially restrictive stock airbox lids and intake snorkels.

Each XStream Powerlid includes a K&N DryCharger® and the necessary carburetor jets to properly tune your ATV! Use with K&N performance ATV filter for best results.

2. K&N PERFORMANCE REPLACEMENT ATV FILTERS

K&N High - Flow Air Filter's pleated cotton design offers a larger surface area over a foam air filter and provides outstanding engine protection. K&N ATV Air Filters fit directly in the ATV stock airbox, require no airbox modifications and are designed with an application-specific sealing surface to ensure an airtight fit! Use with PreCharger to extend service interval in extreme conditions.
