

QUICKSHOT 2 ACCELERATOR PUMP COVERS

The NEW redesigned QUICKSHOT 2 has now pushed fuel delivery to the next level. Superior in design to all AP covers, the QS2 accelerates fuel delivery while eliminating troublesome trapped air that can cause bog and hesitation. 25% more fuel capacity plus added bleed capability allows for solid fuel delivery 100% of the time.

Now 2007 Honda CRF250R & CRF450R owners can benefit from the proven results of the Boyesen QS2. The 2007 CRF R model QS2 houses a high volume check valve that manages fuel through a cartridge design for high sensitivity and instant acceleration.

POWERWING

INCREASED AIRFLOW PERFORMANCE

- **INCREASES HORSEPOWER** and torque in 2-stroke and 4-stroke engines
- **AERODYNAMIC DESIGN** maximizes velocity generation and power gain
- **WING CHANNEL** minimizes disturbance at needle jet without affecting jetting curve
- **PRECISION FIT** doesn't reduce size of carburetor bore so there is no loss of power
