

For applications see page 234-236

OFF-ROAD/ATV

429 SERIES SHOCKS

The 429 is designed to improve handling and stability while cruising and when at full payload. The 429 Series shocks are easy to bolt on and easy to run via threaded preload adjusters similar to a modern motocross bike.

- Available in a Heavy Duty spring rate
- Steel monotube, (IFP) Internal Floating Piston
- High pressure nitrogen charged dampers
- No modifications required & can be installed with basic tools

512 SERIES SHOCKS

- Gas charged for fade-free operation
- Double-walled, steel bodied
- 5-Position adjustable pre-load
- Increased load carrying capacity, increased length & travel for more ground clearance & better handling over rough terrain
- Shocks come with Shock "Sox" to keep dirt & mud out of the spring & keep adjuster clean

SWAYBAR ADJUSTER BLOCKS

Swaybar Adjuster Blocks are simple affordable solution to cure the RZR's tendency to under steer in, and snap over steer out of corners. Installs in minutes and instantly improves the cornering ability for your RZR.

- Allows for fine tuning of handling characteristics
- Billet Aluminum
- Three Swaybar mounting positions
- Includes Hardware
- Available for 2008-2011 Ranger RZR (not S)

13 SERIES DAMPERS

- Perfect choice for that classic dirt bike in your garage
- Foam cell (non gas charged)
- Double-walled construction for extra durability
- Hard chromed, precision ground shock shaft
- Five position cam style preload adjuster
- 1 Year Warranty
- Shocks & Springs sold separately

TOURING LINK

The Touring Link Chassis stabilizer is inexpensive and easy to install solution to handling challenges inherent in touring models. Compact design does not hang below the frame or impede ground clearance. Motor/Swingarm assembly stays aligned with chassis while avoiding the introduction of unnecessary vibration to the rider.

- Simple to install
- Forged Steel construction
- No lost ground clearance
- Precision Rod End Bearings
- 1993 thru 2013 HD Touring Models

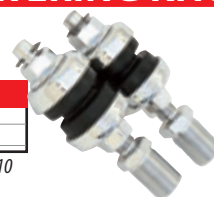

For applications see page 234-236

30-2001	44-5211	2009 thru 2013 HD Touring Models

AIR SHOCK REBUILD UPGRADE KITS & TOOLS FOR GL MODELS

For Honda Goldwing

- **Kit A** - (Springs) Contains heavy duty springs which allow you to run far less air pressure than the wimpy stock springs.
- **Kit B** - (Damper Units) Contains new replacement damper units that feature a sealed body to eliminate oil contamination. Special hard chrome plating and excellent damping make these units far superior to the stock units.
- **Spring Compressor** - Air shock rebuilding tool. Works on the 416 Series too!

GL Air/Oil Springs Kit A
