SUPERLIGHT STAINLESS

SUPERLIGHT STAINLESS SERIES

Don't let the word "light" fool you. This is a big can of whoop-ass you can strap to your bike. Need proof? Our X1 Lightening slip-on cranked out almost 4% more horsepower than other stock systems without any modifications.

SuperTrapp's patented disc design lets you tune your bike for power and sound. Internal and external 4" disc systems are available depending on model.

The looks aren't wimpy, either. Corrosion-free stainless steel and a low-slung look say you mean business. And unlike other replacements, the SuperLight series won't block oil filter, drain plug or center stand access.

You want a piece of this action?

SUPERLIGHT 4" STAINLESS SERIES
